

CERN Colloquium

SPEAKER: Prof. James D. Watson (Cold Spring Harbor Laboratory)

TITLE: **The Discovery of the Double Helix**

DATE: Tue 06/09/2011 17:00

PLACE: Main Auditorium

ABSTRACT

Professor James D. Watson has kindly agreed to make a presentation on the 1953 finding of the Double Helix at the Cavendish Laboratory by Francis Crick and himself. Being one of the greatest scientific discoveries in human history, little else needs to be added.
