

Session Program

28-30 May 2025

2025 ALICE USA meeting at UT Austin

ALICE USA Open session

Friday 30 May

09:00

ALICE USA Open session: ALICE USA Open session

Session | **Location:** POB 2.302 (Avaya Auditorium), Peter O'Donnell Jr Building, 201 E 24th St, Austin

09:00–09:15 **Welcome to the open session**

Speaker

Deepa Thomas

09:15–09:45 **ALICE 3**

Speaker

Mateusz Ploskon

09:45–10:15 **EIC physics and its synergy with HIC using the ePIC detector**

Speaker

John Lajoie

10:15–10:30 **Discussion**

10:30–11:00 **Coffee break**

11:00–11:30 **Latest results and plans with the sPHENIX experiment**

Speaker

Megan Elizabeth Connors

11:30–12:00 **Overview of Heavy flavors in QCD matter with HEFTY framework**

Speaker

Steffen Bass

12:00–12:15 **Discussion**

12:15–13:45 **Lunch**

13:45–14:15 **Latest results and plans with the STAR experiment**

Speaker

Frank Geurts

14:15–14:45 **Status of heavy-ion simulations using Jetscape framework**

Speaker

Rainer Fries

14:45–15:00 **Discussion**

15:00–15:30 **Coffee**

15:30–16:00 **Latest heavy-ion results and future plans with the CMS experiment**

Speaker

Wei Li

17:30

16:00-16:20

FoCal**Speaker**

Prof. Ian Gardner Bearden

16:20-16:50

The 2023 P5 Report**Speaker**

Peter Onyisi

16:50-17:10

USLUA activities**Speaker**

Harvey Newman
