

## **Session Program**

**2-3 Sept 2011**

## **8th RD51 Collaboration Meeting**

### ***WG2 - Physics issues***

Maiko, Kobe, Japan

## Saturday 3 September

09:00

### WG2 - Physics issues

**Session** | **Location:** Maiko, Kobe, Japan | **Conveners:** Maximilien Chefdeville, Harry Van Der Graaf

09:00–09:20

#### Signal propagation and spark mitigation in resistive strips read-outs

**Speakers**

Javier Galan, Javier Galan Lacarra

09:20–09:40

#### Pixelized Micromegas detectors with low discharge rate for COMPASS experiment

**Speaker**

Damien Neyret

09:40–10:00

#### Resistive MicroMegas: a performance study

**Speaker**

Marco Villa

10:00–10:20

#### Coffee break

10:20–10:40

#### The accelerator beam monitoring system using transparent microstrip gas counter for medical use

**Speaker**

Takeshi Fujiwara

10:40–11:00

#### THGEM operation in high pressure Ne/CF<sub>4</sub>

11:00
