

International Symposium on Future Directions in UHECR Physics

Tuesday, February 14, 2012

Experimental challenges of UHECR - 500/1-001 - Main Auditorium (9:10 AM - 11:10 AM)

-Conveners: Bruce Dawson

time	[id] title	presenter
9:10 AM	[M3] HiRes and TA Spectrum Measurements	BERGMAN, Douglas
9:30 AM	[M02] Measurement of the energy spectrum of cosmic rays at highest energies using the Pierre Auger Observatory	MARIS, Ioana
9:50 AM	[M8] The Yakutsk array experiment: main results and future directions	IVANOV, Anatoly
10:10 AM	[M] WG Review of UHECR spectrum data	TSUNESADA, Yoshiki
10:50 AM	[M] Nitrogen fluorescence in air for observing extensive air showers	Dr KEILHAUER, Bianca
