# Narratives

# How to manage the Venice session

- Survey ideas before Venice – QR code at meeting, link sent week before, results revealed at the session – predefined ideas or open suggestions.
- This is the most exciting decision that physicists will make this century

# Ideas

- An adventure into the unknown
- “We choose to go to the moon and do these things, not because they are easy, but because they are hard.” JFK
- FCC-ee is not a discovery a machine
- Higgs factory – a window to the unknown
- Vehicle for discovery (engine is the LHC, luggage is your existing knowledge)
- Christopher Columbus

- Planning for an expedition into the unknown
- Mission to the future
- Solving puzzles – looking for clues
