

## **Session Program**

**1-6 Sept 2025**

# **NuFact 2025 - The 26th International Workshop on Neutrinos from Accelerators**

***WG5***

Liverpool, UK

## Tuesday 2 September

13:45

### WG5

**Session** | **Location:** The Spine, Liverpool, Space 9 | **Convener:** José I. Crespo-Anadón

13:45–14:10

#### Searches for physics beyond the Standard Model with the Short-Baseline Near Detector

**Speaker**

Rohan Rajagopalan

14:10–14:35

#### MicroBooNE's beyond the Standard Model physics program

**Speaker**

Magnus Handley

15:45

16:15

### WG5

**Session** | **Location:** The Spine, Liverpool, Space 9 | **Convener:** Ellen Sandford

16:15–16:40

#### Constraining neutrinophilic mediators at Forward Physics Facilities

**Speaker**

Jiajun Liao

16:40–17:05

#### Searching for Generic Long-lived Particles with the SBND Cosmic-Ray Tagger Modules

**Speaker**

Jiaoyang/ 娇瑒 Li/權

17:05–17:30

#### T violation searches with DUNE and T2HK

**Speaker**

Kiran Sharma

17:45

## Thursday 4 September

11:00

### WG5

**Session** | **Location:** The Spine, Liverpool, Space 9 | **Convener:** Chandan Hati

11:00–11:25

#### Physics potential of solar neutrino detection with JUNO

##### Speaker

Claudio Coletta

11:25–11:50

#### eV and keV sterile neutrinos search with the KATRIN experiment

##### Speaker

Anthony Onillon

12:30
