

## **Session Program**

**Mar 26 - 30, 2012**

# **XX International Workshop on Deep-Inelastic Scattering and Related Subjects**

***Combined: Electroweak and searches/  
structure functions***

University of Bonn, Wolfgang Paul Lecture Hall  
Kreuzbergweg 28, 53115 Bonn, Germany,

## Wed, March 28

1:30 PM

### Combined: Electroweak and searches/structure functions

**Session** | **Location:** University of Bonn, Wolfgang Paul Lecture Hall, Kreuzbergweg 28, 53115 Bonn, Germany,

1:30 – 1:48 PM **Z' production in an extended MSSM**

**Speaker**

Gennaro Corcella

1:48 – 2:06 PM

### Measurements of dibosons with the ATLAS detector and associated constraints on new physics

**Speaker**

Hugh Skottowe

2:06 – 2:24 PM **Diboson Measurements with the CMS Detector**

**Speaker**

Santiago Folgueras

2:24 – 2:42 PM **WZ/WW at the Tevatron (including WW/WZ+jets)**

**Speaker**

Mika Vesterinen

2:42 – 3:00 PM **W mass measurements from the Tevatron**

**Speaker**

Tom Riddick

3:00 – 3:18 PM **Elastic Z0 production at HERA**

**Speaker**

Takuya Nobe

3:30 PM

4:00 PM

### Combined: Electroweak and searches/structure functions

**Session** | **Location:** University of Bonn, Wolfgang Paul Lecture Hall, Kreuzbergweg 28, 53115 Bonn, Germany,

4:00 – 4:18 PM **W/Z/DY + jet as a test of the NLO BFKL kernel**

**Speaker**

Martin Hentschinski

4:18 – 4:36 PM **Measurements of W/Z production with the ATLAS detector**

**Speaker**

Jean-Baptiste Sauvan

4:36 – 4:54 PM

### Measurement of W and Z production in the forward region with LHCb

**Speaker**

Mr Stephen Farry

4:54 – 5:12 PM **Production of Z and W in association with heavy quarks at CMS**

**Speaker**  
Marco Musich

5:12 - 5:30 PM **Drell-Yan production in the forward region with LHCb**

**Speaker**  
Jonathan Anderson

5:30 PM
