

XX International Workshop on Deep-Inelastic Scattering and Related Subjects

Wednesday, March 28, 2012

Combined: Diffraction and vector mesons/spin physics - Lecture Hall, Institute for Physical Chemistry (1:30 PM - 3:35 PM)

time	[id] title	presenter
1:30 PM	[98] Imaging partons using exclusive scattering processes	DIEHL, Markus
1:55 PM	[154] GPD analysis of hard scattering processes : progress report	MOUTARDE, Hervé
2:15 PM	[18] Spin structure of the "forward" nucleon charge-exchange reaction $n + p \rightarrow p + n$ and the deuteron charge-exchange breakup	Dr LYUBOSHITZ, Valery
2:35 PM	[4] Overview of Deeply Virtual Compton Scattering at HERMES	MURRAY, Morgan
2:55 PM	[355] Vector Meson Production and DVCS at CLAS and CLAS12	Dr SOKHAN, Daria
3:15 PM	[127] Hard Exclusive Meson Production at COMPASS and Future DVCS Measurements at COMPASS-II	WOLLNY, Heiner
