## Tuesday 27 March

14:00

### Combined: Future of DIS/spin physics

**Session** | **Location:** University of Bonn, Lecture Hall, Institute for Physical Chemistry

14:00-14:25 **Status of TMDs and impact of an EIC**

**Speaker**

Feng Yuan

14:25-14:50 **Gluon sivers and experimental considerations for TMDs**

**Speaker**

Tom Burton

14:50-15:15 **GPDs experimental**

**Speaker**

Dr Salvatore Fazio

15:15-15:40

### Generalized parton distributions from present and future measurements

**Speaker**

Dieter Mueller

15:40-16:05 **Helicity PDFs at an EIC: quantitative appraisal**

**Speaker**

Marco Stratmann

16:05
