

Session Program

Mar 26 - 30, 2012

XX International Workshop on Deep-Inelastic Scattering and Related Subjects

Combined: Future of DIS/spin physics

University of Bonn, Wolfgang Paul Lecture Hall
Kreuzbergweg 28, 53115 Bonn, Germany,

Tue, March 27

2:00 PM

Combined: Future of DIS/spin physics

Session | **Location:** University of Bonn, Lecture Hall, Institute for Physical Chemistry

2:00 - 2:25 PM **Status of TMDs and impact of an EIC**

Speaker

Feng Yuan

2:25 - 2:50 PM **Gloun sivers and experimental considerations for TMDs**

Speaker

Tom Burton

2:50 - 3:15 PM **GPDs experimental**

Speaker

Dr Salvatore Fazio

3:15 - 3:40 PM

Generalized parton distributions from present and future measurements

Speaker

Dieter Mueller

3:40 - 4:05 PM **Helicity PDFs at an EIC: quantitative appraisal**

Speaker

Marco Stratmann

4:05 PM
