

Session Program

26-30 Mar 2012

XX International Workshop on Deep-Inelastic Scattering and Related Subjects

***Combined: Hadronic final states/structure
functions***

University of Bonn, Wolfgang Paul Lecture Hall
Kreuzbergweg 28, 53115 Bonn, Germany,

Thursday 29 March

09:00

Combined: Hadronic final states/structure functions

Session | **Location:** University of Bonn, Wolfgang Paul Lecture Hall, Kreuzbergweg 28, 53115 Bonn, Germany,

09:00–09:20 **New features in version 2 of the fastNLO project**

Speaker

Daniel Andreas Britzger

09:20–09:40

Inclusive jet production measured with ATLAS, and constraints on PDFs

Speaker

Dr Bogdan Malaescu

09:40–10:00

Jet cross section measurements with CMS

Speaker

Ozlem Kaya

10:00–10:20

On the timelike splitting functions at NNLO and beyond

Speaker

Andreas Vogt

10:20–10:40

A new approach to hadron multiplicity ratio

Speaker

Paolo Bolzoni

10:40
