

Open Hardware at CERN in practice: electronics

Contribution ID: 3

Type: **not specified**

The CERN Electronics Design Office

Friday 9 May 2025 14:25 (15 minutes)

This presentation will highlight the experience and the way the Design Office of the BE-CEM-EPR Electronics Service handles Open Hardware projects. How Open Hardware projects are identified and how the storage is done on EDMS. What is important to take care when working on an Open Hardware project.

Presenter: BERBERAT, Raphael (CERN)
