## IT support for Electronics Design Automation (EDA) tools

*Friday 9 May 2025 14:40 (15 minutes)*

This presentation highlights the current level of IT support for KiCad users. We will outline the contract we have established with KSC to provide efficient technical support to our engineers; the scripts that convert our Altium parts library to KiCad; and a new CMF package for KiCad that will help automate software installation and library setup for Windows users.

**Presenter:** GENTSOS, Christos (CERN (IT-CA-GES))
