

Session Program

18-22 May 2026

14th Edition of the Large Hadron Collider Physics Conference (LHCP 2026)

Parallel : QCD

CICSU, Auditorium

Centre de conférences internationales - Sorbonne Université 4 Place Jussieu, 75005 Paris

Monday 18 May

14:00

Parallel : QCD

Session |
Location: CICSU, Room 109, Centre de conférences internationales - Sorbonne Université 4 Place Jussieu, 75005 Paris |
Conveners: Rene Poncelet, Davide Zuliani, Jesse Liu

14:00-14:18	CMS measurements of precision jet physics and performance Speaker Argyro Ziaka
14:18-14:36	Theoretical status of jet cross sections Speaker MATTEO MARCOLI
14:36-14:54	ATLAS measurements of precision jet physics and performance Speaker Wenhao Ma
14:54-15:12	Theoretical status of energy-energy correlators Speakers Dr Jack Holguin, Jack Holguin
15:12-15:30	LHCb measurement of precision jet physics Speaker Manuel Ramirez Garcia

15:30

Tuesday 19 May

11:00

Parallel : QCD

Session |

Location: CICSU, Room 109, Centre de conférences internationales - Sorbonne Université 4 Place Jussieu, 75005 Paris |

Conveners: Rene Poncelet, Davide Zuliani, Jesse Liu

11:00-11:15

ALICE measurements of heavy-flavour production

Speaker

Vit Kucera

11:15-11:30

Theoretical status of jet flavour

Speaker

Andrew Larkoski

11:30-11:45

ATLAS measurements of jet substructure, parton showers, strong coupling

Speaker

Zackary Lee Alegria

11:45-12:00

Theoretical status of higher logarithmic accuracy in parton showers

Speaker

Silvia Zanoli

12:00-12:15

CMS measurements of jet substructure, parton showers, strong coupling

Speaker

Arne Christoph Reimers

12:15-12:30

LHCb measurements of jet substructure

Speaker

Qundong Han

12:30

14:00

Parallel : QCD

Session |

Location: CICSU, Room 109, Centre de conférences internationales - Sorbonne Université 4 Place Jussieu, 75005 Paris |

Conveners: Jesse Liu, Rene Poncelet, Davide Zuliani

14:00-14:18

ALICE measurements of strangeness production and hadronization

Speaker

Francesca Ercolessi

14:18-14:36

Theoretical status of EPOS LHC

Speaker

Dr Tanguy Pierog

14:36-14:54

ATLAS measurements of soft and nonperturbative QCD

Speakers

Leszek Adamczyk, Leszek Adamczyk

14:54-15:12**Theoretical status of hadronization in Monte Carlo****Speaker**

Gregory Soyez

15:12-15:30**CMS measurements of soft and nonperturbative QCD****Speaker**

Javier Llorente Merino

15:30
