

**Session Program**

16-20 Jun 2025

**5th DRD1 Collaboration Meeting and Topical  
Workshop Towards Sustainable Gas Mixtures  
for Future Detectors**

***Working Group 6: Detector production***

CERN, 513/1-024

# Thursday 19 June

09:00

## Working Group 6: Detector production

**Session** | **Location:** CERN, 160/1-009 | **Conveners:**  
Giuseppe Iaselli, Rui De Oliveira, Gabriel Charles, Fabien Jeanneau, Alain Delbart

### 09:00–09:25 Preliminary results of Picosec-uRGroove detector

**Speaker**  
qixuan huang

09:25–09:55

### Production and Qualification of RPC Gas Volumes at Max Planck Institute and Industrial Partners: Progress and Validation Studies

**Speaker**  
Dr Francesco Fallavollita

09:55–10:25

### New production ideas for thin RPC

**Speaker**  
Kyong Sei Lee

10:25–10:55

### Coffee break

10:55–11:15

### Short presentation on the Project of MPT-Workshop at LNF

**Speaker**  
Dr Giovanni Bencivenni

11:15–11:35

### MOLLER triple GEM detector production at SBU

**Speaker**  
Bryna Moran

11:35–11:55

### Overview of various uRwell and uRGrooves prototypes currently tested

**Speaker**  
Kondo Gnanvo

12:05
