

Session Program

Dec 16 - 18, 2025

EurASc Annual Symposium 2025

Symposium

CERN, 500/1-001 - Main Auditorium

Wed, December 17

3:20 PM

Symposium: EURASC Symposium (Session 4)

Session | Location: CERN, 500/1-001 - Main Auditorium | Convener: Armando Pombeiro

3:20 – 3:45 PM

The societal impact of fundamental research and technology sovereignty - two antipodes? The case of advanced materials in Europe

Speaker

Dr Jürgen Tiedje

3:45 – 4:00 PM

From a material developed for solar cells applications to innovative helium targets´ fabrication for fundamental nuclear reaction studies.

Speaker

Prof. Asunción Fernández

4:00 – 4:15 PM

Impact of physical properties of nanomaterials in the next generation diagnostic devices

Speaker

Prof. Arben Merkoci

4:15 – 4:30 PM

Wetland’s biogeochemistry: a framework driving from basic research to climate change mitigation

Speaker

Prof. Antonio Camacho

4:30 PM
