Photon detection for Cherenkov counters - chair: B. Gobbo (09:00 - 10:55)

time	[id] title	presenter
09:00	[50] Development of 144ch HAPD for Aerogel RICH for Belle Upgrade	NISHIDA, Shohei
09:20	[7] Status and perspectives of solid state photon detectors for single photon detection	HABA, Junji
10:05	[53] Silicon photomultiplier as a position sensitive detector of Cherenkov photons	KORPAR, Samo
10:30	[48] First Detection of Air Shower Cherenkov Light by Geiger-Avalanche Photodiodes	LORENZ, Eckart
