

# RICH2007

## Saturday, 20 October 2007

### Exotic applications of Cherenkov radiation - chair: M. Calvi (09:00 - 11:10)

time	[id] title	presenter
09:00	[77] Calorimetry and Cherenkov Effect	PENZO, Aldo
09:25	[75] Zero Degree Cherenkov calorimeters for the ALICE experiment	DE FALCO, Alessandro
09:45	[80] LUCID: a Cherenkov tubes based detector for monitoring the ATLAS experiment luminosity	ZOCCOLI, Antonio
10:05	[79] A high resolution TOF counter - a way to compete with a RICH detector ?	VA'VRA, Jerry
10:30	[76] RF Cherenkov picosecond timing technique for high energy physics applications	MARGARYAN, Amur
10:50	[78] Cherenkov detector based on the aerogel radiator for detection of $^{90}\text{Sr}$	PESTOTNIK, Rok
