

CERN Colloquium

SPEAKER: Dr. Lawrence M. Krauss (Director, ASU Origins Project)

TITLE: **Quantum Man: Richard Feynman's Life in Science**

DATE: Thu 29/09/2011 16:30

PLACE: Council Chamber

ABSTRACT

It took a man who was willing to break all the rules to tame a theory that breaks all the rules. This talk will be based on my new book *Quantum Man: Richard Feynman's life in science*. I will try and present a scientific overview of the contributions of Richard Feynman, as seen through the arc of his fascinating life. From Quantum Mechanics to Antiparticles, from Rio de Janeiro to Los Alamos, a whirlwind tour will provide insights into the character, life and accomplishments of one of the 20th centuries most important scientists, and provide an object lesson in scientific integrity.

Organised by: Ignatios Antoniadis/PH-TH.....**Tea and coffee
will be served at 16h00**
