

# ELENA

Welcome to everybody  
ELENA is approved.

As in the days of the AD construction we do need your help for the ELENA construction and therefore I would like to thank you all for coming.

- The present ELENA parameters come from the Feasibility Study, with the approved project, the parameters will be reviewed in order to get a TDR.

We all are looking into a splendid future.

# External Contributions to the construction of ELENA

## External Contributions to the construction of ELENA

List of contributions available or to be applied for according to letters/e-mails sent to Walter Oelert.

Money in Million CHF, Man-power (MY) in Man-Years

No.	Institution	Cash available	Cash applied for	MY available	MY applied for
1	Univ. Tokyo and MPQ-MPI	2.0		7	
2	Cockcroft Accel. Inst. plus Swansea		1.0	1.5	2.5
3	Denmark		0.8 0.8*		2
4	IKP Research Center Jülich			3	
5	CEA-IRFU Saclay (France)		0.3**		1**
6	Physicists from US (Berkeley LBNL and DOE)		1.2		6
7	ISI/Mainz HIM/MAM		0.15		3
8	MSL Stockholm				2.5
9	Aarhus Univ.		0.4		
10	ELSE to be named				
	<u>very optimal SUM</u>	2.0	4.65	11.5	17.0

- \* This second amount of 0.8 Million CHF will only be applied for if the first application is successful
- \*\* These numbers are not yet approved and need confirmation

# Day1: 28<sup>th</sup> of September

## 30/7-018

- **Structure of our meeting:**
- 1) Short introduction to the presently running experiments and the physics goals for the future with ELENA will be outlined.
- 2) ELENA and its manpower and financial structure for the construction phase will be summarized and some of the conveners will outline the needs and possibilities how to work with external partners.
- 3) You from external laboratories will tell us about your ideas and possibilities to contribute to the construction of ELENA.
- **4) We will enjoy a nice dinner (NOVAE, restaurant 1) and continue to talk about everything.**

# Day2: 29<sup>th</sup> of September

## 13/2-005

- 5) And finally items 2 and 3 will be compared to see how much we can fill up the table of the distribution chart,(in the agenda) thus that you will go home with some clear conceptions what you can contribute and the conveners of each working package will know to whom they can talk for design and specifications.
- Lets go to work to get ELENA as a successful facility, have a good cooperation and some fun with the work ahead of us.

THANK YOU
