WP6A Cold Powering

Tuesday 30 September 2025 11:50 (30 minutes)

The presentation provides an update on the production and qualification of the Cold Powering Systems for the HL-LHC magnets. It also outlines the status of activities at the collaborators' site, the progress of procurement, and the schedule for installing the eighth series of systems in the LHC underground during LS3.

Presenter: BALLARINO, Amalia (CERN)

Session Classification: Plenary session 1 - Tuesday AM
