

Session Program

3-4 Nov 2011

CLIC Collaboration working meeting addressing the 2012-16 workpackages

X-band Technologies

CERN, Multiple rooms

Thursday 3 November

10:00

X-band Technologies

Session | **Location:** CERN, 160/1-009 | **Convener:** Walter Wuensch

10:00–10:30 **Introduction to the X-band activity**

Speaker

Walter Wuensch

10:30–10:40 **IFIC, Valencia - Test infrastructure**

Speaker

Silvia Verdu Andres

10:40–10:50 **IRFU, Saclay - Test infrastructure, testing, production**

Speaker

Mr Franck Peauger

10:50–11:00 **KEK - Test infrastructure, testing, production**

Speaker

Toshiyasu Higo

11:00–11:10 **Sincrotrone Trieste - Test infrastructure, production**

Speaker

Dr Gerardo D'Auria

11:10–11:20 **Uppsala/NorduCLIC - Test infrastructure, testing, high-gradient R&D**

Speaker

Volker Ziemann

11:20–11:30 **PSI - testing, production, rf design**

Speakers

Dr Micha Dehler, Terry Garvey

11:30–11:40 **Lancaster - rf design, production**

Speaker

Amos Dexter

11:40–11:50 **Tsinghua - rf design, production**

Speaker

Jiaru Shi

11:50–12:00 **Manchester - rf design, production**

Speaker

Dr Alessandro D'Elia

12:00–12:10 **Two-beam acceleration : rf design and beam physics studies**

Speaker

Erik Adli

12:10-12:20 **HIP/NorduCLIC - Production, high-gradient R&D**

Speaker

Kenneth Osterberg

12:20-12:30 **JINR - Engineering Design**

Speaker

Alexander Karlov

13:40
