

## **Session Program**

**7-9 May 2012**

## **Phenomenology 2012 Symposium**

### ***Higgs III***

University of Pittsburgh  
Pittsburgh, PA 15260

# Monday 7 May

14:00

## Higgs III

**Session** | **Location:** Lawrence, 104 | **Convener:** Dr Andreas Ross

14:00–14:15

### Associated Higgs plus vector boson test of a fermiophobic Higgs boson

**Speaker**

Prof. Zack Sullivan

14:15–14:30

### Light top partners for a light composite Higgs

**Speaker**

Giuliano Panico

14:30–14:45

### Discovering the composite Higgs through the decay of a heavy fermion

**Speaker**

natascia vignaroli

14:45–15:00

### A composite Higgs at high $q^2$

**Speaker**

Prof. Heather Logan

15:00–15:15

### Structure of derivative interactions in N pseudo Nambu Goldstone Higgs doublet models

**Speaker**

Dr Yasuhiro Yamamoto

15:15–15:30

### The other Higgses, at resonance, in the Lee-Wick extension of the Standard Model

**Speaker**

Dr Terrance Figy

15:30–15:45

### Higgs and Collider Phenomenology of Models with Additional Lepton Generations

**Speaker**

Dr Pedro Schwaller

16:00
