Dr. Steve Goldfarb

Of the **House of Blues** (and ATLAS) – the first of his name

By day: not-so-mild-mannered Particle physicist, searching for answers to Life, the Universe and Everything. Forever “42”!
What he doesn’t know about ATLAS isn’t worth knowing…

By night: front man of the Canettes Blues Band, bringing his style of Michigan Blues to the good people of Geneva (and beyond!)

Warning: Just don’t ask him questions that he doesn’t like! Last people to do that a few weeks ago mysteriously disappeared…

…is it any coincidence that Steve started “renovations” on his house? Hmmm…

"Two scoops of chocolate almond for me."
