

Session Program

13-17 Jul 2026

**18th International Workshop on Boosted
Object Phenomenology, Reconstruction,
Measurements, and Searches at Colliders**

Event shapes, showers and substructure

Thursday 16 July

09:00

Event shapes, showers and substructure

Session | **Location:** Krupnicza 33, 31-123 Kraków

09:00–09:20

Event Isotropy in perturbative QCD

Speakers

Daniele Atzori, Daniele Atzori

09:20–09:40

Jet fragmentation at next-to-single log (NSL) for general cuts

Speaker

Alexander Fraley

09:40–10:00

Searching for New Physics Inside Jets with the Herwig 7 Generalised Parton Shower

Speaker

Joon-Bin Lee

10:00–10:20

Machine learning fully hadronic events with spectral functions

Speaker

Kazuki Sakurai

10:20
