

Session Program

13-17 Jul 2026

**18th International Workshop on Boosted
Object Phenomenology, Reconstruction,
Measurements, and Searches at Colliders**

***Measurements and searches with boosted
objects***

Tuesday 14 July

11:30

Measurements and searches with boosted objects

Session | **Location:** Krupnicza 33, 31-123 Kraków

11:30–11:50

Boosted W/top mass and substructure at ATLAS and CMS

Speaker

Conrado Munoz Diaz

11:50–12:10

Extended Scalar Sector and Heavy Vector-Like Searches with ML-based jet-taggers in CMS

Speaker

Christos Leonidou

12:10–12:30

Search for boosted Higgs boson productions at ATLAS

Speaker

Gabriel Facini

12:30
