

Session Program

13-17 Jul 2026

18th International Workshop on Boosted Object Phenomenology, Reconstruction, Measurements, and Searches at Colliders

***New measurements from RHIC and archived
data***

Wednesday 15 July

09:00

New measurements from RHIC and archived data

Session | Location: Krupnicza 33, 31-123 Kraków

09:00–09:20

Jet Results in p+p Collisions at STAR

Speaker

Taoya Gao

09:20–09:40

Recent jet and event-shape observable results from the Electron-Positron Alliance

Speaker

Shuangyi (Bill) Zhou

09:40–10:00

Measurement of Spin and Quantum Correlations in $Z \rightarrow \tau^+ \tau^-$ Decays at LEP with DELPHI

Speaker

Chen-Hua Hsu

10:00–10:20

Extraction of Quark and Gluon Jets with CMS Open Data

Speaker

Van Dung Le

10:20
