

Session Program

13-17 Jul 2026

18th International Workshop on Boosted Object Phenomenology, Reconstruction, Measurements, and Searches at Colliders

Flavour tagging

Tuesday 14 July

14:00

Flavour tagging

Session | **Location:** Krupnicza 33, 31-123 Kraków

14:00–14:20

Transforming Flavour Tagging with the ATLAS Detector: ML tools and calibration techniques

Speaker

Greta Brianti

14:20–14:40

Jet flavor tagging developments and performance in the CMS experiment

Speaker

Philipp Gadow

14:40–15:00

Jet flavour tagging studies for e+e- collisions at FCC-ee

Speaker

Apranik Fatehi

15:00–15:20

Hidden Flavor Information in Kinematics of Particle Flows at the Large Hadron Collider

Speaker

Sung Hak Lim

15:20–15:40

Calibration of a Transformer-Based Quark/Gluon Tagger in ATLAS

Speaker

Samuel Jankovych

15:40
