Work supported by the U.S. Department of Energy under contract No. DE-AC02-07CH11359

# Form subgroups

- Conditions application
  - Frontier/Squid/CORAL/COOL
- Relational database deployment & replication
- Online detector controls data
- Non-conditions distributed computing applications
  - Including needs for non-relational DBs

# Method of operation

- Dario & Dave create a document template
- Each subgroup have an organizer
- Have meetings within each subgroup to agree on the important points
- Within each group choose person or people to write first draft
- Take care to not go into so much detail & background that no-one reads the document
- Share document with whole group for revisions
