Switzerland

Monday 29 October

10:30

Plenary: Highlight Talks

Session | **Location:** CERN, 503/1-001 - Council Chamber, CH-1211 Geneva 23
Switzerland

10:30–10:50

HT 1 - Advances in Electro polishing of Niobium Resonators

Speaker

Axel Matheisen

10:50–11:10

HT 2 - Development of a new beam position Monitor for FLASH and XFEL

Speaker

Claire Simon

11:10–11:30

HT 3 - The new CLIC parameters

Speaker

Alexej Grudiev

11:30–11:50

HT 4 - Recent developments of the Milano Blade-Tuner and their possible benefits for future SRF accelerators

Speaker

Carlo Pagani

11:50–12:10

HT 5 - Progress in laser-plasma accelerator research

Speaker

victor malka

12:10–12:30

HT 6 - Active techniques to mitigate the electron-cloud effect in proton machines

Speaker

Dr Frank Zimmermann

12:30
