The screenshot shows the ARENA 2012 website interface. At the top right, there is a language dropdown set to 'English' and a red-bordered 'Login' button. Below this, a navigation menu shows 'My conference' and 'My contributions', with the latter highlighted. Under 'My contributions', there is an 'Actions' section with 'Edit' and 'View' buttons, and a 'Files' section with an 'Edit files' button. A modal window titled 'Upload Material' is open, showing the 'Basic' tab. It has radio buttons for 'Local file' (selected) and 'External resource (hyperlink)'. There is a 'Choose File' button with 'no file selected' and a 'more' link. A checked checkbox is labeled 'Convert to PDF (when applicable)'. The 'Material type' is set to 'Slides'. Below this, there is a note: 'This will be the first resource of type Slides. Please select who will be able to access this material type:'. There are three radio button options: 'Inherit from parent Contribution (currently open to everyone, but can change)' (selected), 'Private: Can only be viewed by you and users/groups chosen by you from the list of users', and 'Public: Can be viewed by everyone'. At the bottom of the modal is a 'Create Resource' button.
