

Top Quark Production @ Tevatron

Thursday 14 June 2012 10:30 (25 minutes)

Top quark was discovered at Tevatron by CDF and D0 experiments at 1995. Tevatron had concluded its mission in Sep. 2011. In this report the production cross section of Top quark will be reported. Recent observation of forward-backward asymmetry in the top production will be updated with full RUN II data.
