

Workshop on Materials for Collimators and Beam Absorbers

Tuesday 04 September 2007

Session 3: Experimental results and future tests / test station - 40-S2-D01 (14:00-16:45)

time	[id] title	presenter
14:00	[13] Measurement of shock waves and vibrations	RICHTER, Herta
14:30	[61] Accelerometer and microphone measurements of the LHC collimator	REDAELLI, Stefano
15:00	[45] Experimental methods for material measurements at high strain-rate	AVALLE, Massimiliano
15:30	Coffee break	
15:55	[49] Irradiation damage in LHC beam collimating materials	SIMOS, Nick
16:25	[54] Studies of radiation effects on graphite collimator materials	RYAZANOV, Alexander
