

Session Program

20 November 2025

Numerical Perturbation Theory

Afternoon 2

ETHZ, E41.1

ETH Honggerberg Stefano-Franscini-Platz 5, 8093 Zürich

Thursday 20 November

15:10

Afternoon 2

Session | **Location:** ETHZ, E41.1, ETH Honggerberg Stefano-Frascini-Platz 5, 8093 Zürich

15:10–15:35

bbH production: a theoretical laboratory for flavour-scheme studies

Speaker

Christian Biello

15:35–16:00

Locally finite two-loop amplitudes for photoproduction in quark annihilation

Speaker

Roshni Sahoo

16:00–16:25

Locally finite QCD amplitudes and cross sections

Speaker

Julia Karlen

16:25–16:50

Numerical Evaluation of the Two-Loop Dark Matter Power Spectrum in the EFTofLSS

Speaker

Andrea Favorito

16:50
