

Session Program

20 November 2025

Numerical Perturbation Theory

Morning 1

ETHZ, E41.1

ETH Honggerberg Stefano-Frascini-Platz 5, 8093 Zürich

Thursday 20 November

09:00

Morning 1

Session | **Location:** ETHZ, E41.1, ETH Honggerberg Stefano-Frascini-Platz 5, 8093 Zürich

09:00–09:25

Applications and challenges in numerical methods for pQFT

Speaker

Valentin Jonathan Hirschi

09:25–09:50

The art of constucting and sampling cut integrals

Speaker

Mathijs Fraaije

09:50–10:15

Localized renormalization and graph-based tooling

Speaker

Lucien Huber

10:15
