# WLCG Operations and Tools TEG

Introduction

Maria Girone & Jeff Templon

F2F meeting, Amsterdam

23 January 2011

WLCG
Worldwide LHC Computing Grid

Status

- About 10 weeks since the kick-off meeting

- All working groups have reported and made observations and recommendations
  - First draft just available

- The purpose of this first part of the F2F is to review these and make them consistent

- The second part of the meeting will have a panel discussion to assign global priorities and consider disruptive changes

Next Steps

- Document the current situation, observations and recommendations

  - After approval of the MB, the strategy should be valid throughout LS1 and beyond (2-5 years)

    - How can we reduce the overall level of operational effort in the future?

- Full day "pre-GDB" on 7th Feb dedicated to TEG reports
