

# 3rd POCPA Meeting

21 – 23. May. 2012

Hamburg

# 3rd POCPA Meeting

**> Welcome to Hamburg and DESY**

## **Guest net**

Guests, with unregistered MAC-Adresses will be mapped to our "Guest VLAN", it's a DESY Class-C Network which provides DHCP-Support. Before you will get internet access, you have to open your Internet browser with any requested Internet Site. Your request will be redirected to our Portal Server, a DESY form opens automatically. There you have to fill out the required fields. After submitting this form it will take about 1 minute before your requested Internet Site appears. Up to now you can use the Internet connectivity for a maximum of 90 days.

## Welcome to the DESY Visitor Network

---

The DESY Visitor Network is open to all temporary visitors, users, and DESY employees. It provides access to the Internet, including DESY, but no privileged access to DESY internal computing resources. It is neither intended nor supported for hosting servers or mission-critical applications. Before you can proceed to the Internet, you need to agree to the [DESY Conditions of Use](#) ( I've read the rules).

### Contact Information

We are asking you to provide sufficient contact information so that we can contact you if your computer causes problems on the network. If you choose to not provide sufficient or valid contact information and your computer causes network problems, **all we can do is to disable your network access.**

You will have access to the Internet for a maximum of 90 days without having to fill this form again, unless you use a different computer or network card.
