

POCPA3 – DESY, May 21-23, 2012

POCPA3 – Some Closing Remarks

Power Converters for Particle Accelerators

Roberto Visintini

Elettra – Sincrotrone Trieste

Acknowledgments (very well deserved)

- The Local Committee in DESY
 - Joerg Eckoldt and Bjoern Naeser
- The Organizing Committee in CERN
 - Jean-Paul Burnet and Maria Llorente
- The Tutorial Organization
 - Quentin King, Miguel Cerqueira Bastos, Francois Bouvet, Michele Martino, Hans Jaeckle, Niels Heidbrook, Fulvio Boattini
- The Scientific Committee
 - Jean-Francois Bouteille, Tony Dobbing, Rene Kuenzi, Bob Lambiase, Ju Wang
- The Lecturers and ...

...all of YOU who attended!

POCPA3 – Still open issues...

POCPA3 - DESY

- Main Topic: Digital Regulation and Control
- Presentation from Labs & Open Discussion
- Proposals for next POCPA in 2014:
 - ❖ “Formula and Basic Rules”
 - ❖ Tutorial Feedback (Yes/No, any changes?)
 - ❖ Main Topic
 - ❖ **When**
 - ❖ **Where**

Formula and Rules

POCPA Workshop every two years:

- Invitation only, not publicized and informal ⇒ “**Community**”.
- Experience exchange ⇒ Best Practices, knowledge and **TROUBLES**.
- Accelerators World only ⇒ nobody from the "Fusion World" nor Academia.
- Free speech ⇒ no companies invited nor sponsorship from commercial entities searched.
- No fee ⇒ host lab offers the breaks and – if possible – also the workshop dinner (in case a small fee could be foreseen).
- Duration ⇒ 3 days

WWW.

WHAT?

Proposal: “Maintenance Best Strategies and Practices”

Proposal: “Energy Efficiency and Saving”

(2008: “Reliability”, 2010: “Safety”)

+

Presentation from Labs

Tutorials: maybe not due to CAS Course in the same year.

WWW.

WHEN?

CAS Course May/June, in Switzerland

EPE 2015, Switzerland

proposal: 2nd half October 2014

WWW.

WHERE?!!

BNL, New York (USA)?

Bob Lambiase
