

Session Program

26-30 Mar 2012

**Implications of LHC results for TeV-scale
physics**

WG2 parallel: 3rd generation focus

CERN

Wednesday 28 March

11:00

WG2 parallel: 3rd generation focus

Session | Location: CERN, 4/2-011 - TH common room

11:00-11:15 **ATLAS+CMS searches for SUSY in all-hadronic final states**

Speaker

Dr Will Reece

11:20-11:40 **ATLAS+CMS searches for SUSY in 3rd generation final states**

Speaker

Alan Tua

11:45-12:05 **Natural SUSY**

Speaker

Andreas Weiler

12:10-12:30

Discussion of (light stop)implications and what should go into the report

12:30
