

Session Program

26-30 Mar 2012

**Implications of LHC results for TeV-scale
physics**

WG3 parallel

CERN

Wednesday 28 March

09:00

WG3 parallel: New Fermions and Vectors

Session | **Location:** CERN, 4/2-011 - TH common room

09:00–09:30 **New fermions and gauge interactions in CMS**

Speaker

Maxime Gouzevitch

09:30–09:50 **Doubly charged excited leptons**

Speaker

Orlando Panella

09:50–10:10 **New vectors: document plan and discussion**

Speaker

Manuel Perez-Victoria

10:10–10:30 **New fermions: document plans and discussion**

Speaker

Geraldine Servant

10:30
