

Heavy Ion Collisions in the LHC Era

Friday 20 July 2012

Global and Collective Dynamics (09:00 - 12:30)

time	[id] title	presenter
09:00	[22] Jets, Bulk Matter, and their Interaction in Heavy Ion Collisions at the LHC	WERNER, Klaus
09:30	[34] Recent results from ALICE	Prof. YOO, In-Kwon
10:00	[4] The recent elliptic flow results at STAR	SHI, Shusu
10:30	Coffee break	
11:00	[15] Higher Harmonics in Event-by-Event Viscous Hydrodynamics	JEON, Sangyong
11:30	[7] Global and Collective Dynamics at PHENIX	Mr NIIDA, Takafumi for the PHENIX Collaboration

Global and Collective Dynamics (14:00 - 15:00)

time	[id] title	presenter
14:00	[20] New Relativistic Dissipative Fluid Dynamics from Kinetic Theory	Prof. BHALERAO, Rajeev
14:30	[3] Shear and Bulk Viscosities of a Gluon Plasma in Perturbative QCD	Prof. WANG, Qun
