

Physics at LHC 2012

Monday 4 June 2012

1C: LHC Experiments II - LSC-2 (14:30 - 15:55)

-Conveners: Anadi Canepa

time	[id] title	presenter
14:30	[125] Status and plans of LHCb	FORTY, Roger
14:55	[126] Reconstructing jets, missing energy, taus in CMS	KAADZE, Ketii
15:15	[2] Neutral particles energy spectrum for 900 GeV and 7 TeV p-p collisions as measured by the LHCf experiment	Dr D'ALESSANDRO, Raffaello
15:35	[127] Results from particle identification in pp collisions measured with ALICE at the LHC	ZAMPOLLI, Chiara
