

# Physics at LHC 2012

## Tuesday, 5 June 2012

### 2E: (Parallel) EWK and QCD - LSC-2 (14:30 - 16:10)

-Conveners: David Strom

time	[id] title	presenter
14:30	[118] Resummation for QCD and EW cross-sections at the LHC	BECHER, Thomas
14:50	[100] Associated production of W and Z bosons with jets from light and heavy quarks	CASTELLO, Roberto
15:10	[79] Physics with electroweak gauge bosons at LHCb	BARTER, William James
15:30	[139] W mass measurement from CDF	STELZER-CHILTON, Oliver
15:50	[28] W and Z properties and cross sections measured with ATLAS	NAGAI, Koichi
