X International Conference on Hyperons, Charm and Beauty Hadrons

The Conference offers an opportunity for both theorists and experimentalists from the high-energy physics community to discuss all aspects of hyperon and heavy-flavor physics:

- K, Charm and B meson decays
- Symmetry Violations
- Physics beyond Standard Model
- Heavy quark production in hadron and lepton interactions
- Quarkonium spectroscopy and production
- Advances in theoretical calculations
- Hyperon physics
- Top quark physics
- New experimental facilities and projects
