## Tuesday 24 July

09:00

### B physics 1

**Session** | **Location:** Wichita, Kansas (USA) | **Convener:** Michael Murray

09:00–09:45

#### Recent results from LHCb and future prospects

**Speaker**

Pierluigi Campana

09:55–10:20

#### Heavy Flavor Cross Section measurements with the ATLAS Detector

**Speaker**

Chris Hawkes

10:25–10:50

#### Measurement of Mass and Lifetime of $\Lambda_b$

**Speaker**

Natalia Panikashvili

10:55–11:20

#### Coffee Break

11:20–11:45

#### Heavy Flavor production at HERA

**Speaker**

Kenan Mujkic

11:50–12:15

#### Recent results on hadronic B decays from Belle

**Speaker**

Jung Hyun Kim

12:20–12:45

#### Searches for New Physics in Heavy Flavor Decays at CDF

**Speaker**

Robert F. Harr
