

**Session Program**

23-28 Jul 2012

**BEACH 2012 - 10th International Conference  
on Beauty Charm Hyperons in Hadronic  
interactions**

***QCD session***

Wichita, Kansas (USA)

# Friday 27 July

14:00

## QCD session

**Session** | **Location:** Wichita, Kansas (USA) | **Conveners:** Patrizia Cenci, Elizabeth Worcester

14:05–14:30 **Bottomonium with a Kratzer molecular potential**

**Speaker**

Mario De Souza

14:30–14:55

**COMPASS experiment at CERN: hadron spectroscopy and open charm results**

**Speaker**

Oleg Kouznetsov

15:00–15:25 **The  $N^*$  Program at CLAS12**

**Speaker**

Philip Cole

15:30–15:55 **Precision tests of QCD at HERA**

**Speaker**

Martin Brinkmann

16:00–16:30 **Coffee Break**

16:30–16:55 **Weak hadronic matrix elements from lattice QCD.**

**Speaker**

Aida El-Khadra

17:00–17:25 **Excited charmonium spectroscopy from lattice QCD**

**Speaker**

Christopher Thomas

17:30–17:55

**Final State Interactions and Polarization Observables in the Reaction  $pp \rightarrow p\Lambda$**

**Speaker**

Matthias Roeder

18:00
