

BEACH 2012 - 10th International Conference on Beauty Charm Hyperons in Hadronic interactions

Thursday, 26 July 2012

Strange and Charm physics (14:00 - 18:10)

-Conveners: Janis McKenna; Phil Cole

time	[id] title	presenter
14:00	[36] Status and latest results from NA62	CENCI, Patrizia
14:35	[37] X-ray spectroscopy of light kaonic atoms - new results and perspectives	MARTON, Johann
15:05	[38] Study of hyperons with CLAS and CLAS12	PASYUK, Eugene
15:35	Coffee Break	
16:05	[39] Charmonium results from BaBar	KASS, Richard
16:35	[40] Review of charm physics at BESIII	LI, Hai-Bo
17:05	[41] Rare kaon decay measurements with NA62 minimum bias data	PODOLSKY, Sergey
17:35	[42] Recent results from NA48 and prospects	LAZZERONI, Cristina
