

Session Program

Apr 9 - 10, 2026

Congresso FIS&GEO 2026

Planetologia

Fri, April 10

9:15 AM

Planetologia: Planetologia

Session

9:15 - 9:33 AM

High-Pressure and High-Temperature Volatiles Across Planetary Bodies

Speaker

Carla Tiraboschi

9:33 - 9:51 AM

From terrestrial volcanic ashes to planetary surfaces: FTIR spectral constraints on eruption style from surge deposits from Vulcano Island (Italy)

Speaker

Gentili Camilla

9:51 - 10:09 AM

Spectral and Rheological Characterization of Synthetic Silicate Glasses Analogous to Lunar Basalts

Speaker

Gabriele Scognamiglio

10:10 - 10:28 AM

Spectroscopic investigations for planetary exploration: from bottom up to top down

Speaker

Alessandro Pisello

10:28 AM
