

Session Program

9-10 Apr 2026

Congresso FIS&GEO 2026

Planetologia

Friday 10 April

09:15

Planetologia: Planetologia

Session

09:15–09:33

High-Pressure and High-Temperature Volatiles Across Planetary Bodies

Speaker

Carla Tiraboschi

09:33–09:51

From terrestrial volcanic ashes to planetary surfaces: FTIR spectral constraints on eruption style from surge deposits from Vulcano Island (Italy)

Speaker

Gentili Camilla

09:51–10:09

Spectral and Rheological Characterization of Synthetic Silicate Glasses Analogous to Lunar Basalts

Speaker

Gabriele Scognamiglio

10:10–10:28

Spectroscopic investigations for planetary exploration: from bottom up to top down

Speaker

Alessandro Pisello

10:28
