

Session Program

Apr 9 - 10, 2026

Congresso FIS&GEO 2026

Onde Gravitazionali

Fri, April 10

10:45 AM

Onde Gravitazionali

Session

10:45 - 11:03 AM

Tecnologie del vuoto per l'Einstein Telescope: sfide di sistema e infrastrutture di prova

Speaker

Aniello Grado

11:03 - 11:21 AM

Noise attenuation in gravitational waves interferometers

Speaker

Nicolò Baldicchi

11:21 - 11:39 AM

Deep Reinforcement Learning for Lock Acquisition Optimization in Non Linear Optical Cavities.

Speaker

Andrea Svizzeretto

11:39 AM - 12:02 PM

Strong-gravity tidal effects in black-hole systems and their signatures in gravitational waves

Speaker

Marta Cocco

12:02 PM
